REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

The prior art of record does not show, teach or fairly suggest a proximity monitoring system capable of accurate boundary detection that is substantially independent of orientation, the system comprising a transmitter including an antenna array and a receiver module including an antenna array, the transmitter array continuously generating a magnetic field having an intensity and defining a boundary, the field based upon an electrical signal, the receiver array responsive to the magnetic field and in communication with a receiver, and a measurement circuit for determining a total power of the field incident thereat, and including additional circuitry. The additional circuitry as recited in Claim 28 is a power supply line frequency connected to the transmitter, and the receiver having a digital signal processor for extracting the magnetic field and rejecting power supply line interference; and additional circuitry as recited in Claim 29 comprising three transmitter antennas having respective axes; and additional circuitry, as recited in Claim 30, the receiver antenna array includes a two-axis, single output magnetic field sensing antenna producing a single magnetic field transduction signal output, all arranged as set forth in these claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

EXAMINER'S AMENDMENT

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Thomas A. Kulaga on 11/12/2004.

The application has been amended as follows:

In Claim 21, line 2, change both occurrences of "said" to ---a--, and in line 3, change the first occurrence of "said" to --a--.

These changes were made to provide a proper antecedent basis for the claim language and to eliminate any indefiniteness in the claims and were entered by the examiner at this time due to a previous oversight.
